CABPES is proud to offer the CompTIA A+ Certification Class to high school juniors and seniors. This program is designed to help students land entry-level positions in IT by ensuring they know the basics of working with hardware, networks, and computer systems. High school students earning a CompTIA A+ certification can get entry-level IT positions at companies like Dell, Intel, Nissan, Blue Cross and Blue Shield and HP. CompTIA A+ Certification is also widely accepted for college credit.

For more information about the program and certification visit: **www.comptia.org.**
